

PUBLIC HEALTH SERVICES HOSPITAL

Addendum #1

This letter and the enclosed materials listed below constitute Addendum #1 to the Public Health Services Hospital Request for Proposal (RFP).

1. A copy of the revised Figure 3 of the Draft Planning and Design Guidelines; Height Limits and Development Boundaries. This revision has been made in order to clarify the locations where new construction may be located. PDF files of the Draft Planning and Design guidelines will be available on the Trust web site (www.presidio.gov) on September 19, 2003.
2. To obtain copies of Autocad floor plans of 1802, 1803, 1805, 1806, 1807, 1808, 1809, 1810, 1811, 1812, 1813, 1815, 1450, and a copy of a Presidio base map, please contact Becky Carpenter of the Presidio Trust at (415) 561-5063.
3. The parking lot located directly North of Building 1801, on the site of the former marine cemetery is currently used as the Presidio Trust and the National Park Service composting yard. The area is identified as an environmental remediation site which is currently scheduled for completion in early 2006. However, because the remediation project requires extensive regulatory oversight and approval by the Department of Toxic Substance Control and other stakeholders, the schedule is subject to change. The Presidio Trust makes no representations that the project will be completed prior to the completion of the PHSB project. Following the completion of the remediation efforts, the site is proposed for a native plant restoration.

For further information contact John Fa at 415-561-5430.
