PUBLIC HEALTH SERVICES HOSPITAL RFP  
ADDENDUM NO. 5**

**RESPONSE TO QUESTIONS**

**Q1. Please describe the Presidio Trust's plan check and building permit process, together with any costs associated with that process.**

A1. The Presidio is under exclusive Federal jurisdiction and not subject to the City of San Francisco's requirements pertaining to the plan check and building permit process. However, for purposes of explanation, the Trust's process is very similar to the City's. The specific fee amount will be determined during design development and finalized in the negotiation process, but for budgetary purposes please review the City of San Francisco's fee schedule. Also note that for other larger Presidio projects the cost for plan check and inspections has been between one and two percent of the total construction cost.
